PLATINUM SERIES

Emperor

The
Highest
Technology
in
Car Wash
NEW CRANKCASE DESIGN!
Nickel-plated crankcase means higher corrosion resistance!

Increased sliding surface of the plunger guide means better stability of the guide and reduced wear.

NEW GUIDING SYSTEM!
Optimal sliding of the plunger guide assembly reduces friction between plunger and seals and extends life of seals (Patent Pending)

NEW OPTIMIZED OUTLET VALVES!
Better volumetric efficiency

NEW DUAL LIP OIL SEAL!
Better oil/water sealing

Large diameter of sight glass means easier oil checking

NEW FORGED STAINLESS STEEL MANIFOLD (AISI 420B), NICKEL PLATED
For increased corrosion resistance

NEW DUAL DIAMETER PLUNGER GUIDE!
Rolled oil seal sliding surface reduces risk of oil leaks and extends oil seal life

NEW! Dust protection chamber between crankcase and manifold

NEW PLUNGER FASTENING SYSTEM!
Eliminates the risk of pressure build-up inside the plunger.

NEW FORGED STAINLESS STEEL MANIFOLD (AISI 420B), NICKEL PLATED
For increased corrosion resistance

NEW DUAL LIP OIL SEAL!
Better oil/water sealing

NEW DESIGN!
Oversized connecting rods reduce specific pressure and provides better lubrication

Large oil capacity means better cooling and lubrication

NEW!
Patent pending seal packings with special seals for car wash applications to 185°F

NEW OPTIMIZED OUTLET VALVES!
Better volumetric efficiency

NEW GUIDING SYSTEM!
Optimal sliding of the plunger guide assembly reduces friction between plunger and seals and extends life of seals (Patent Pending)
